I am always a lucky dog with my parents' support as well as my friends' and teachers' help. Thanks to their support and help, I can have a happy life and do well in my schoolwork. I want to say thanks to all of them, but I want to thank my mother most. It is my mother who always

cares about me. I often show my thanks to her on special days like Mother's Day or Thanksgiving Day.

Several weeks ago, I had a great time with my mother on Thanksgiving Day. In the morning, my mother and I left home early as usual. But I decided to give my mother a surprise when she got home in the evening. At school, I made a special card with a great poem for my mother in my spare time. Then I bought some flowers on my way home. When my mother saw the beautiful flowers for her, she was surprised and happy. When she found the card and read the poem on it. She was so moved that she even cried. She gave me a hug, smiled at me and thanked me for my love. Later, we talked with each other for a long time while cooking. The experience made both of us have a better understanding of our love.

To show thanks to others, I think we are supposed to do something special on special days. We are supposed to buy some gifts on their birthdays or write a letter to show our thanks. We are also supposed to help our parents, teachers or friends when they are in need in our daily life. Only in this way can we get on well with others and live happily.

Hi, I am Jenny. Last week, my class planned an interesting trip to the art museum. We were supposed to leave school at 8:30 am, but we left 30 minutes earlier. Because it is very far from our school. We told jokes happily on the school bus. When we got off the bus, we found the art museum wasn't open. Some of us were kind of unhappy. Luckily there is a music club near the art museum. We had to walk there because we couldn't find any public bikes. There happened to be a music festival in the music club. We had fun answering questions about music to win prizes. We also met a famous musician who told us about the development of the traditional musical instruments. Also he introduced the history of modern music. His rich knowledge surprised us. Thanks to the great school trip, we had a chance to learn a lot in a different way.

Sometimes a normal day may have special meaning to people. For people around China, November 18th, 2016 is such a day because of the great astronaut Jing Haipeng. On that day, Shenzhou XI returned from space and landed successfully. All Chinese people cheered up when they watched the news. Jing Haipeng and another hero, Chen Dong, were warmly welcomed when they came back to the earth safely. It was the third time for Jing Haipeng to be sent to space. He has spent nearly 18 years studying in different fields. He not only did well in different training tests, but also he mastered more skills. The achievements made him be chosen as the person to do the research work in space again. To our excitement, Jing Haipeng, the national pride, was born in Shanxi Province. We are proud of him and we should learn from him because he set a really good example for us.
